The sealing discs have a capacity range of 0.5mm per disc.
To order SDER32-180 for a 18mm Dia Seal

Mounting Instruction of the Sealing Discs

Assembly

Insert the small diameter of the disc into the centre of the coolant nut and apply even pressure until the disc is properly seated into the nut. The disc must be flush with the outside of the nut and the marked diameter on the disc must be seen inside the nut.

Removal

To remove the disc, simply press on the outside of the disc evenly, until it snaps out.
